The screenshot displays the Ximpler web application interface. The top navigation bar includes a user profile (Hooked Inc. Fisher Tyson), a 'New' dropdown, a 'Spy Mode' button, the 'XIMPLER' logo, a 'Release' dropdown, a 'Run' button, and an 'ADMIN' dropdown. The left sidebar contains a menu with categories: Object Repository, Test Case, Test Suites, Test Suites Collection, Data Files, Keywords, and Report. The 'Test Case' category is expanded, showing 'TestLogin' and 'Ximpler1'. The main area shows the 'TestLogin' test case with tabs for 'Manual', 'Script', and 'Variables'. The 'Manual' tab is active, displaying a table of test steps. Above the table are buttons for 'Move Up', 'Move Down', 'Delete', and 'Duplicate Test Case'. The table has columns for Step, Name, Object, Input, and Output. Each row includes a checkbox, a step number, a name, an object, an input field, an output field, a delete icon, and a move icon.
